EMERGENCY VEHICLES

TRAILERS

PREMIUM PROTECTION. PROVEN PERFORMANCE.

Fortix was developed for premium canopy builders, toolbox manufacturers and vehicle body fabricators who demand dependable performance in the toughest environments.

Designed with IP66 dust and water protection, reinforced construction and smooth ergonomic operation, Fortix delivers the confidence of a premium access solution, whether it's fitted to a fleet vehicle, service body, trailer or custom canopy.

Every detail has been engineered to improve reliability, security and ease of use, helping builders create products that perform for years in harsh Australian conditions.
